## LOCAL CONTENT AND LOCAL PARTICIPATION POLICY PROCUREMENT OF GOODS AND SERVICES MINING INDUSTRY, GHANA

## THE 6<sup>TH</sup> EDITION

The Minerals and Mining (Local Content and Local Participation) Regulations, 2020 (L.I.2431). The purpose of the Regulations among others is to:

- a) Promote job creation through the use of local expertise, goods and services, businesses and financing in the mining industry value chain and their retention in the country.
- b) Achieve the minimum local level and in-country spend for the provision of the goods and services in the mining industry value chain.
- c) Increase the capability and international competitiveness of domestic businesses.
- d) Create mining and mineral related and support industries that will provide jobs and sustain economic development.

Pursuant to Regulation 7 of L.I. 2431, the Commission is required to publish in the *Gazette*, the website of the Commission and in a newspaper with nationwide circulation a local procurement list which stipulates the goods and services with Ghanaian content which are to be procured in the country. Regulation 7(3) of L.I. 2431 further states that the Commission shall review the procurement list annually.

The new list, which is the sixth edition, has Fifty-one (51) on the list. The new list is to increase the Ghanaian content by preserving more items for companies or entities whose Shareholders and Directors are citizens of Ghana.

The overall aim is to deepen local participation and enhance true local procurement as only about half of the US\$ 3 billion (40% of mineral revenues in 2023) that was spent on goods and services by the mining companies was undertaken by Ghanaians. With gold receipts of nearly 11 billion United States Dollars at the end of 2024, the case for a strong local content and local participation cannot be over emphasized.
